PHARMACEUTICALS  
& DIETARY SUPPLEMENTS

## TRUSTED GLOBALLY!

Our facilities operate according to current Good Manufacturing Practices (cGMPs), with short and direct channels of communication. This puts us in a position to carry out each order in line with our sole mission:

To cultivate and maintain healthy, sustainable relationships with our customers and deliver products and services that meet the highest standards.

**WE SUPPLY MORE THAN PRODUCTS,**

*We Provide Solutions*

## PRODUCT EXCELLENCE

We offer global contract manufacturing and private label services, including complete supply chain solutions. We have the capability to manufacture healthy foods of utmost pharmaceutical quality, producing finished tablets, capsules and powders.

Our experienced formulation and development team can help you formulate products that best meet your needs, keeping costs, quality and timelines in mind. As our products are sold in multiple regions, and through a variety of sales channels, we bring a unique perspective to product development.

We maintain strict quality control to guarantee our customers a reliable supply of consistently high-quality products and excellent value for money. We have structured our entire organization to keep the supply chain in our own control - from product research and development to manufacturing. This assures our customers benefit from our knowhow at every level.

## OUR QUALITY CONCEPT

At Bioplus, quality is paramount. We are dedicated to innovating, formulating, developing & manufacturing high quality, certified and well-documented products. Our management and staff strictly adhere to international cGMPs.

Our raw materials are carefully selected and products developed using only the highest quality ingredients. We partner with a diverse base of suppliers, Therefore we can offer competitive pricing meeting precise demands of our customers.

We continue to enhance the compliance of Quality Assurance systems to meet various national & international standards subjecting them for various customers / regulatory inspections/audits.

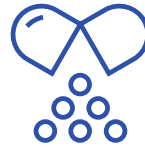

Your end-to-end private-label partner for all your **contract manufacturing** needs
